NEW YORK HERATES THRESDAY OCTOBER 3 180L

The Venderbilt Goard, Colonel Raymond, has recently attached itself to this regiment, and will go into camp at Salteraville. New Jersey, by Friday next, where even the content of t Saliersville, New Jersey, by Friday next, where every preparation is being made for their reception. Owing to the consolidation of these two regiments, Colonel Raymond has accepted the position of Major, which was formerly held by S. J. THE TENTH REGIMENT, NATIONAL ZOU-

AVES.

Col. J. E. Bendix is now recruiting in this city to fill up Col. J. E. Bendix is now recruiting in this city to fill up to 1048 men. Lieut. Col. Ender and Lieut. Aaron Seeley, the Quartermaster, are here on recruiting service. The regiment is at Fortress Manroe. The Lieutenant Colonel being very sick, the duties devolve on Quartermaster Seeley, who is working night and day for the regiment, sending off by most every train a large squad of recruits. Those wishing to join may apply at 450 Broadway and corner of Third avenue and Firty-eighth street.

Colonel Serrell has just returned from Washington, with an order from the Secretary of War-to be approved by an order from the Segretary of War—to be approved by Governor Morgan—directing this regiment to be mustered in as a regiment of engineer officers and soldiers. They are ordered to Fort Schuyler to complete their organization and proceed to Washington with all despatch. The increase of pay which this gives will doubtiess fill up the ranks at once. The officers are all engineers of experience and the mon are all mechanics, and none but skilfol men in the various branches of mechanics are accepted.

Colonel O. DeForest has been fully authorized to raise his command to a brigade, which is now very rapilly being completed. It numbers at present fifteen compa-nies, encamped at Camp Scott, and by Saturday next the rigade will receive further reinforcements, which will ake a complement of fully two thousand men. Captain make a complement of fully two thousand men. Captain Cramm arrived at camp Sunday merning, with his full company. On Saturday Major McVicur brought on from Rochester Captain Samley's company. The Major returned recently to Rochester, where he will superinteed the completion of the following companies:—Captain Ward's, which is now in an advanced state; Captain Bouriger's, at Athlon, and Captain McDonaid's, at Honcoye Falls. The Major will incture a different places during his absence on military subjects. One company from Michigan is expected in ten days. The brigade will be fully equipped and mounted as seen as the horses can be purchased, so as to have the min as efficient as possible before they are ordered to Washington. It is probable that Major McVicar will receive the position of Lieutenant Colonel of the Second regiment of the brigade for his indefatigable exertions on behalf of the organization.

This regiment will have a fete champetre and flag raising this afterneon at their cump. Elm Park, Staten island. The boat will leave with the grests of the occasion from the foot of Cortland street at eleven A. M.

In the recently published lists of appointments as brigade surgeons we find the names of three professors of colleges-Dr. Frank H. Hamilton, of Bellevue Medic dlege; Dr. John C. Dalton, of the New York College of Physicians and Surgeons, and Dr. Refes King Browne, of the New York Medical College. The learned thus furnish an example for the laboring to enter the service, as the duties of the army surgeon are well known to be of the most onerous character.

CARBINES FOR THE ARMY.

TO THE EDITOR OF THE HERALD.

Hall's carbine is a breech loader and condemned by the overnment. They have been sold by the government at the public sales held at the various United States depots at \$1 to \$2 each. Sharpe's and other breech leading guns are improvements on Hall's, hence rendering them obsolete. The common store price has been \$4 to \$6, and where found may now be bought for \$10, which is a dear price. Any higher price paid by the government is simply a swindle. PRO BONO PUBLICO.

A NEGRO PREACHING SECESSION DOCTRINE A negro named John Jones was brought before Alder-man Chipp, at the Jefferson Market Police Court, yesterday morning, on a charge of disorderly conduct preferre against him by policeman Booth, of the Twentieth pre-cinct. The officer stated that he found the prisoner ounted on a flour barrel in Thirtieth street, preaching secession dectrine to a large concourse of men, wemen and children. He was determined, he said, to get down South and help Jeff. Davis to whip the Yamkees, and was going on at a rapid rate about the utter hopiessness of attempting to conquer the rebels, when the officer came up and pushed him off the barrel. The sudden interruption irritated the colored gentleman beyond endurance, and, hadling off, he hit the policeman full in the face. A struggle then followed, and for a few moments it was doubtful who would come off triumphant; but the officer's club turned the scale, and the negro was finally compelled to submit. Johns was evidently demented, athough he claimed to be of sound mind and a man of more than ordinary intelligence. He said he understood the subject of negro slavery most thoroughly, and could convince the Court of the truth of his argument if he would only be allowed the privilege of continuing his harangue. Alderman Chipp was not anxious to hear the lunatic's ravings, however, and cut the matter short by ordering him to be locked up. ecession dectrine to a large concourse of men, women an

The certificate was signed by the officers of the Eighteenth ward, and appearing to be all right upon fis face the woman was permitted to draw upon the funds of the committee for several weeks. Subsequently it was discovered that Mrs. Fellen's real name was Bauer, and that she had no claims whetever upon the charity of the Volunteer Fund. A complaint was immediately instituted against the impostor, and yesterday she was arrested by onicer McGork. The prisoner stated that she was threy six years of age, and was a resident of No. 413 First avenue. Committed for trial.

Suspicion of Infanticipe.—Information was received at the Coroners' office gesterday to the effect that a child was lying dead at the corner of Jay and Greenwich streets under circumstances which warranted the belief that it had been foully dealt with at the hands of its mothers Mrs. Frederiks Baker. Doctor O. F. Feitieleen, who attended Mrs. Baker in her continement, says that the mother offered him \$15 to destroy the life of the infant, but that he refused. Subsequently he learned that a German physician had been called in, and that the child soon afterwards died. He is of opinion that the infant was sufficated, and thinks the case demands a rigid investigation at the hands of the Coroner. An inquest will be held upon the body of the child to-day.

time fell, putting a damper on the guests' feelings; but, having soon passed off their commennaces brightened accordingly.

The scenery and voyago down the bay have been more than once described, and off the present occasion it is only necessary to say every one was established. The average time made was nine and three-quanter knots, or about cloven miles per hous, the range being from nine to nearly eleven knots during the same interval of time. This average was taken of the vehicle trip, both outward and homeward, with the tide and against it. The engines performed an average of eights torns per minute, at one time nearly making the hundred. Scarcely any bige was made during the trip, which extended beyond the light ship, around which the Seneca sailed. The vessel, although she had not her armament on board, scarcely showed any sign of rolling, speaking comparatively, and the usual accompaniment of trial trip—see sickness—was therefore dispensed with.

The Seneca is of the same model and build as the Unadilla, and her armament will be the same—namely, one riled twenty poind Parrot gun on the forecastle, an eleven inch balligen amiliships, and two-brass forty-two howitzers astern.

Among the guests our reporter noticed Commodore

Allaire, Bucknam, Hill, of Mystic, and a large number of naval officers, ship builders, shipmasters, military officers, &c. A very gleasant repast was furnished by Mr. Logan, of No. 13 serune D, whose catering appeared to give general satisfaction. The officers of the gunboat, as far as appointed, are as follows:—

First Lieutenant—John G. Sproston.

She is staunch and strong, and will carry six gans. The Gem of these as will carry four. Unless fresh additions are made the Navy Yard decks will scon be empty.

The United States steamer Curiew, recently chartered by the government, arrived from Boston yesterday morning and anchared off the Navy Yard. The Curiew is the fastest of the late vessels bought, being able to make six teen knots. She has a battery of six 32's and a Parrott gun on the forceastle. She is well supplied with shot, shell, ammunition, &c., and will undoubtedly de good service during the war. She now lies at anchor in the North river waiting orders. The Taunton Gazette publishes a letter from a gentleman on board steamer Massachusetts, doing blockading service at the mouth of the Mississippi, in which the

There is no doubt that an attack will soon be made on some of the principal ports on the Gulf. We expect more vessels here every day, and this place is to be used as a rendezvous for vessels in this part of the Gulf. Probably Chandeleur Island will be fortified and held until we can recapture Ship Island. Last night, for the first time since July 8, the light alip on Chandeleur was Bunniand. The

Brown for having defrauded him out of \$322.32, under the following having defrauded him out of \$522.32, under the following circumstances:—The accused, it is alleged, called upon Judge Maynard, and presented a claim for collection as a time when the latter had no money in his pocket to meet it. In order to obviate the difficulty, however, the Judge sent Brown to the office of George H. Purser, with the request that the latter would draw a check on the Broadway Fank for the amount, payable to him or order. Instead of doing this, Brown, as it is charged, get Mr. Purser to draw a check payable to bearer, and afterwards draw the mency from the bank and appropriated the same to his own use. The accused was arrested on a warrant issued by Justice Osborne, and committed for examination.

The deaths in the ministry were thirthen, and the increase of clergy over the number last year was forty nine. Sermons had been preached and sorvices held in all parts of the discess visited. The Bishop referred to the policy of dividing the discess, which he disapproved in the present state of the country. The question belonged to the General Convention, and the introduction of it at this time might be injurious to the church in this discess. His labors, during his visitation, were extensive, and he thought he might in future years require assistance, but he confused in could not but view sucks a proposition with deep interest when he considered the present state of the decess. At the conclusion of the Bishop's address the discussion relative to the division of the discussion relative to the division of the discuss was taken up, and, after a warm debate, the Convention adjourned to this morning at nine of clock.
